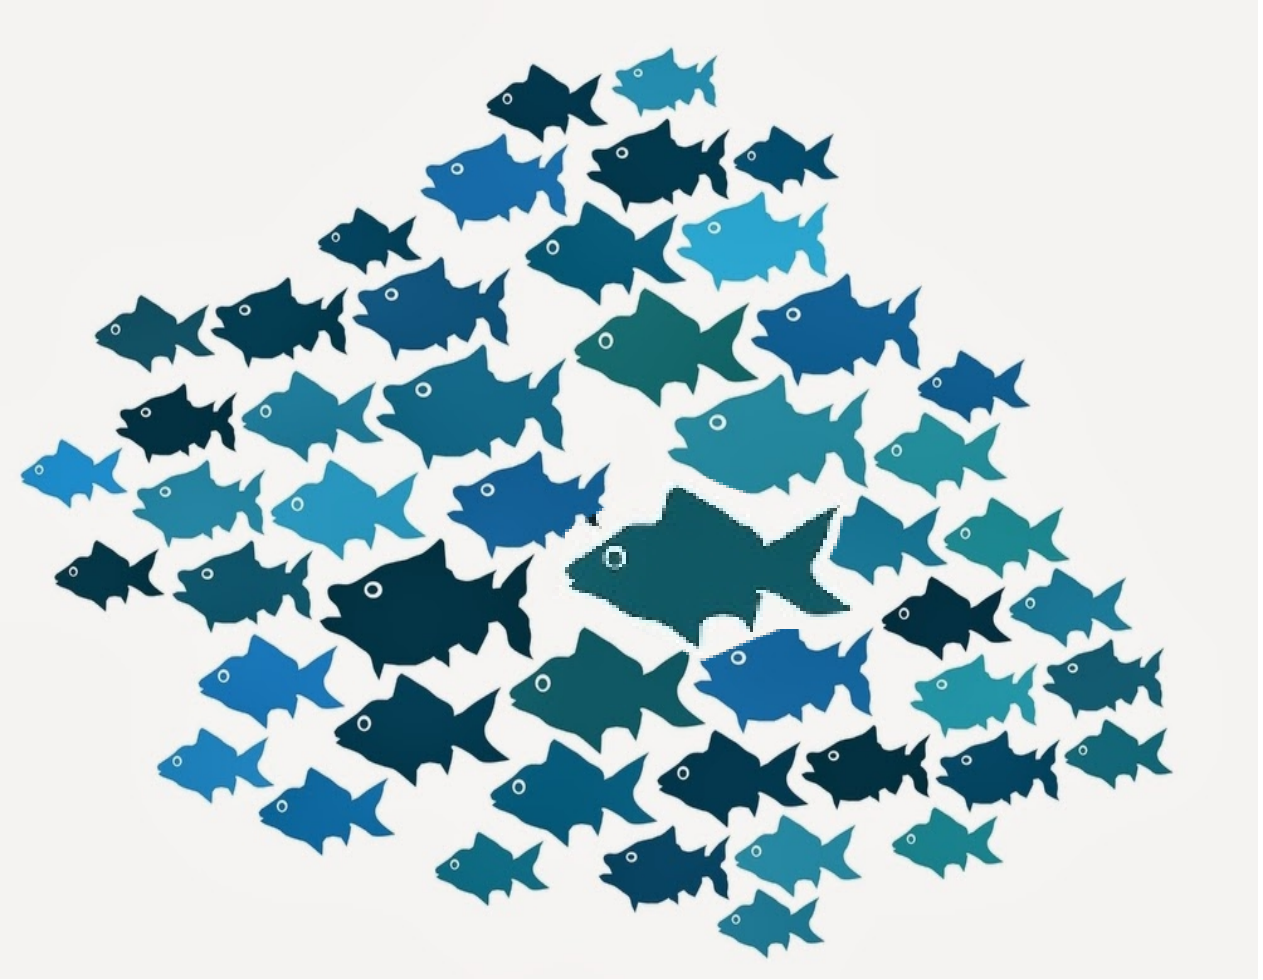
FROGANS
TECHNOLOGY

A New Frontier for publishing content on the Internet

The star, or asterisk character, is the distinctive sign of Frogans addresses

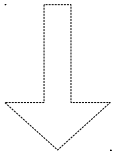
The world of online publishing is saturated...



FROGANS TECHNOLOGY

...and not exactly satisfactory

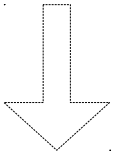
Develop a Web site from scratch



Technical issues relatives to new features of HTML

Multiple (re)developments to be cross-platform

Develop a mobile app

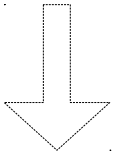


High cost for development, maintenance and updates

Specific development required for each platform

Difficulty to be on all mobile stores

Use a framework or a proprietary solution

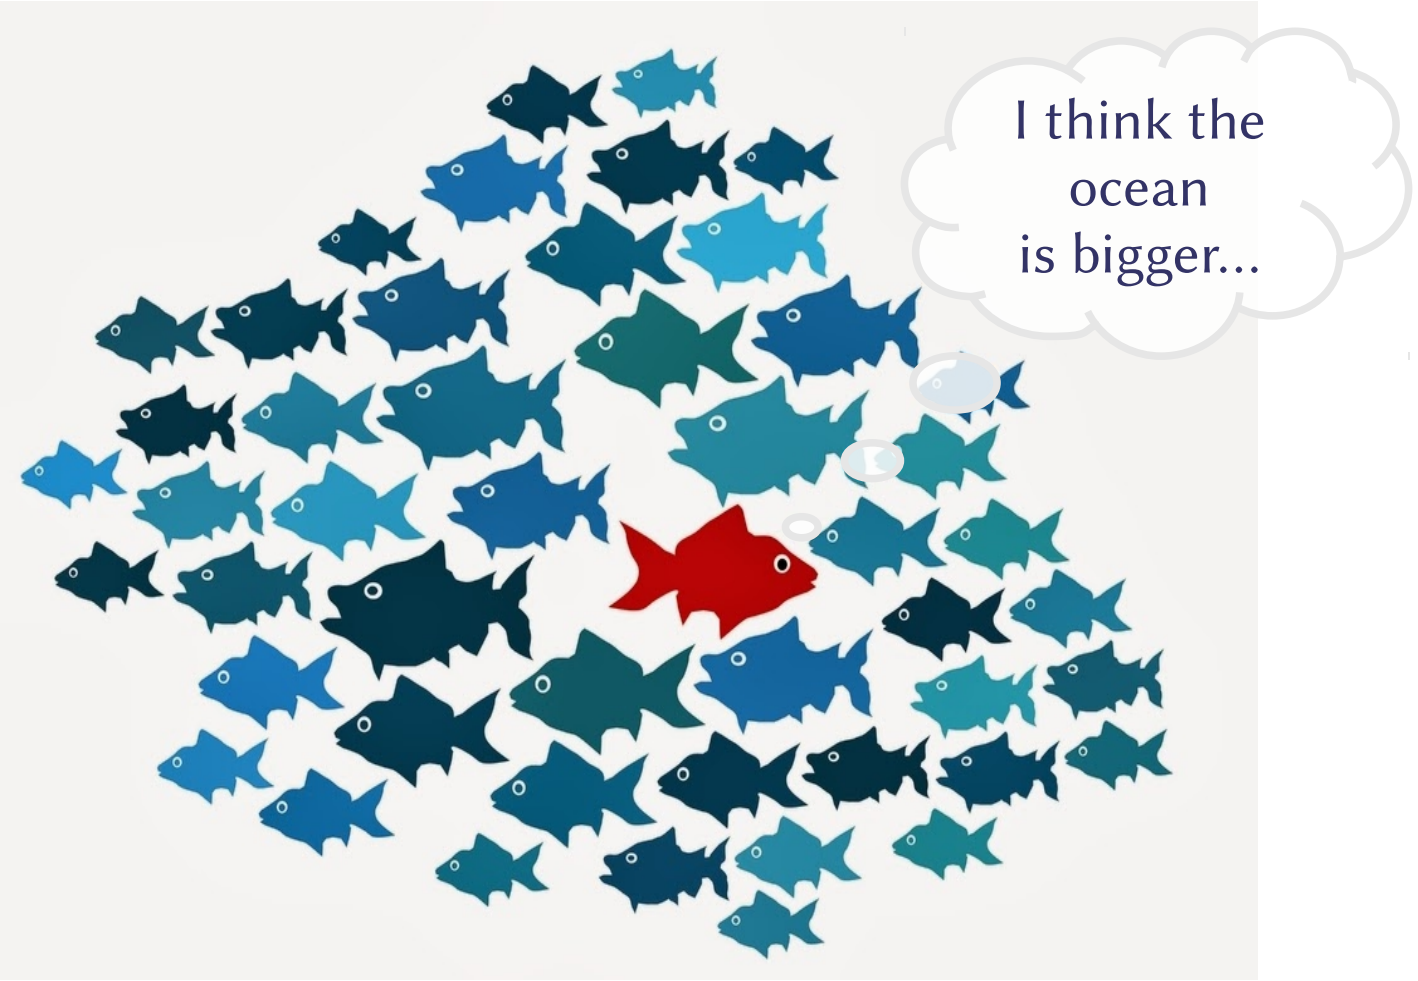


Restrictions on your creativity

Privacy issues (especially on social networks)

OP3FT

A little bit of fresh air would be welcome, wouldn't it?



FROGANS TECHNOLOGY

Publishing on the Internet as simple as posting a letter

No need to worry about:

- Devices at the other hand
- Bandwidth conditions at the other hand
- Man-in-the-middle
- Technical details

One can concentrate on:

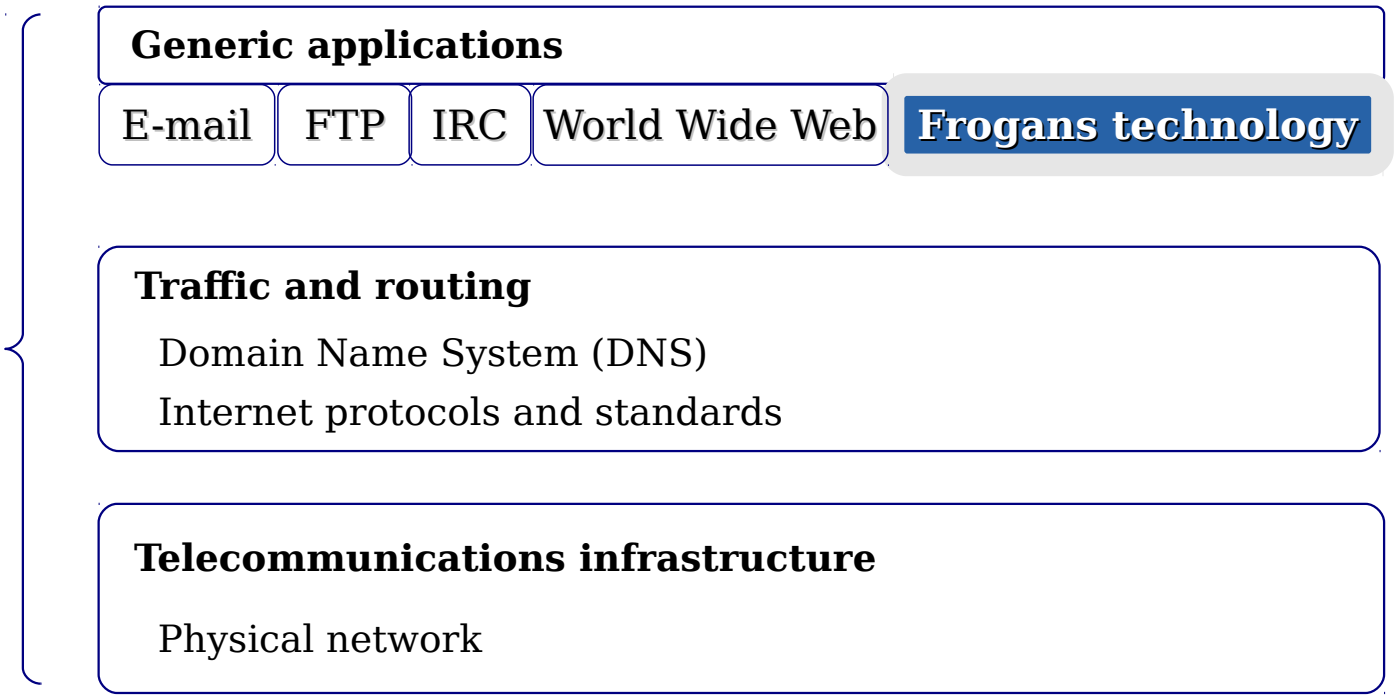
- Content: text, images, vector shapes, ...
- Creativity: forms, transparency, ...
- In whatever language
- Added-value services: sky is the limit!

FROGANS TECHNOLOGY

Because the Internet is open...

... it's possible to bootstrap new applications on the existing infrastructure

The three operating layers of the Internet



We use the TLD .frogans to secure the resolution of Frogans addresses

OP3FT

Meet the OP3FT: **O**rganization for the **P**romotion, **P**rotection and **P**rogress of the **F**rogans **T**echnology

A nonprofit organization acting in the public interest for the stability of the Frogans technology and the benefit of all users

30 staff

- Technical
- Legal
- Promotion

TO HOLD

TO PROMOTE

TO PROTECT

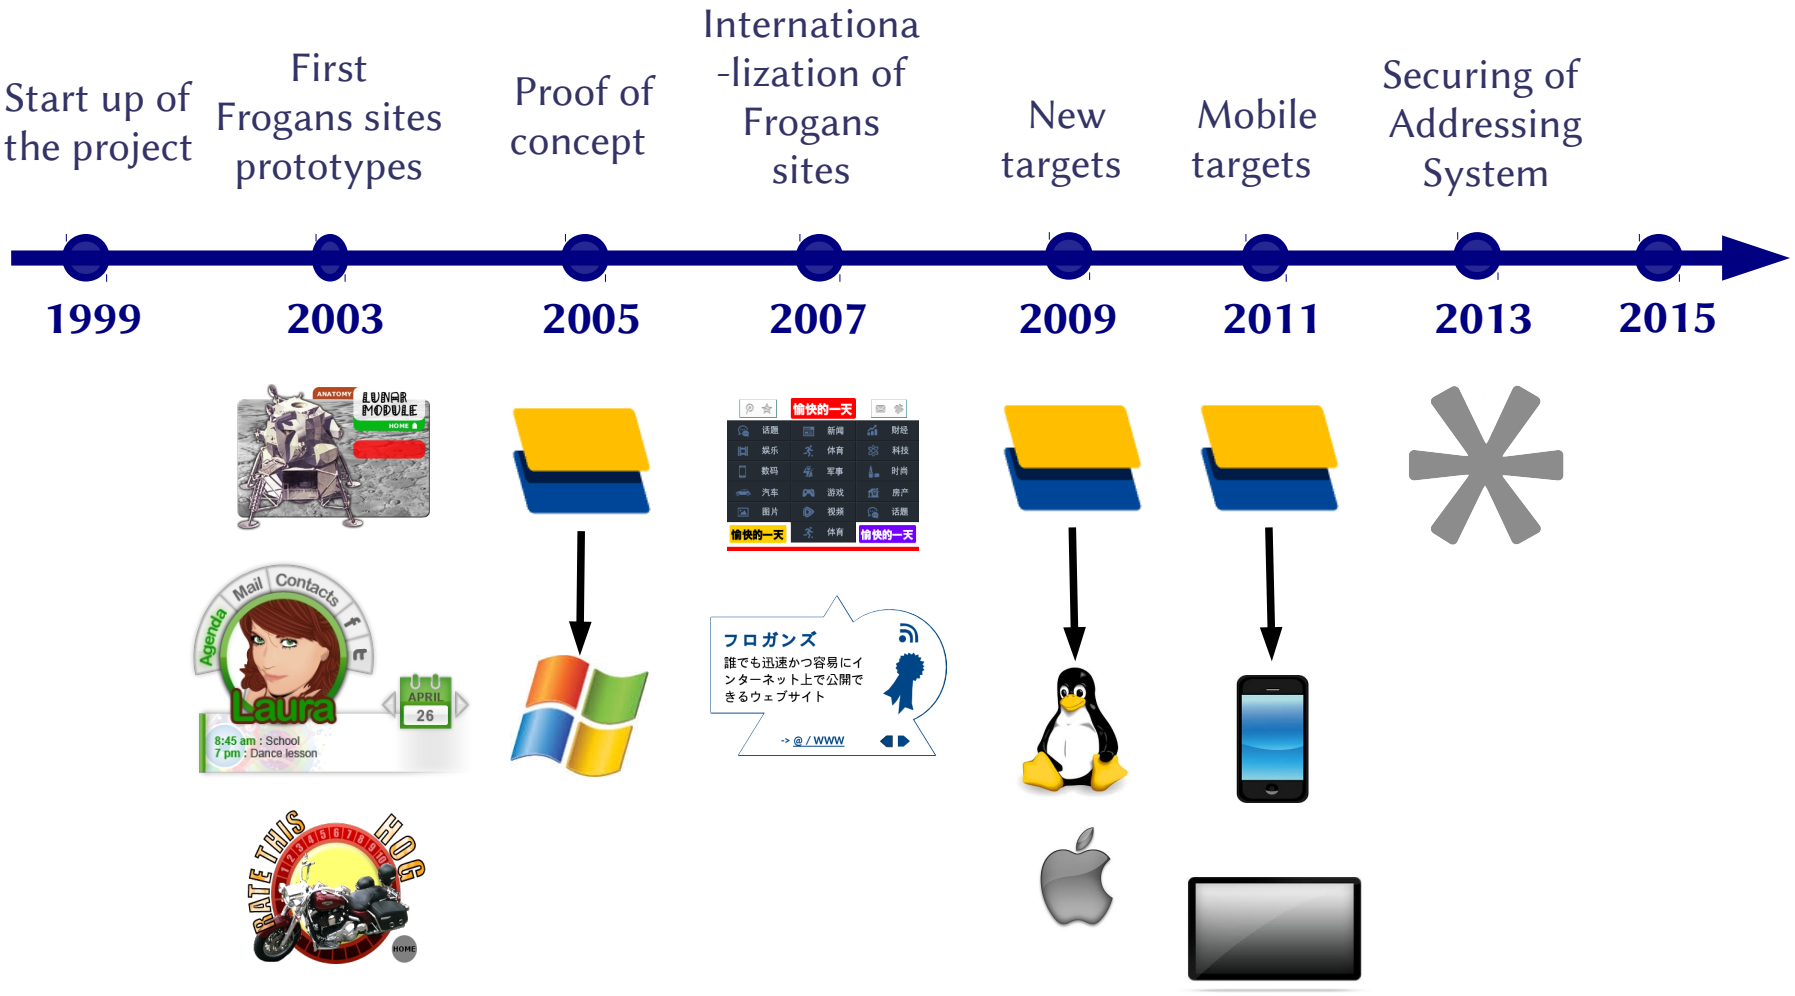
TO ENSURE THE PROGRESS OF

Frogans technology

Released in the form of an open standard, available to all users, free of charge

Introducing a new layer is a long-term mission

15 years of R&D to facilitate and secure publishing of content online



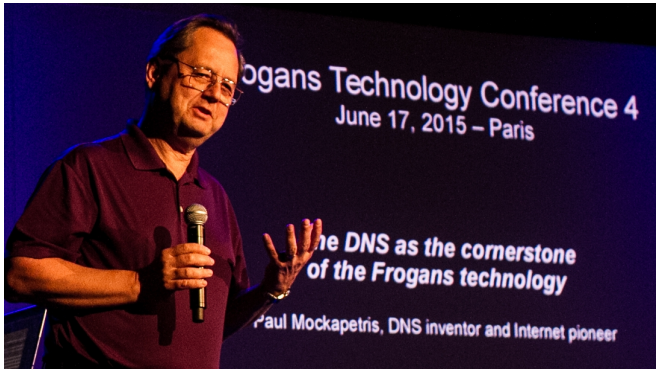
FROGANS TECHNOLOGY

A project with an international credibility

- Supported by

ICANN

afnic



Paul Mockapetris (in 2015)
Inventor of the DNS

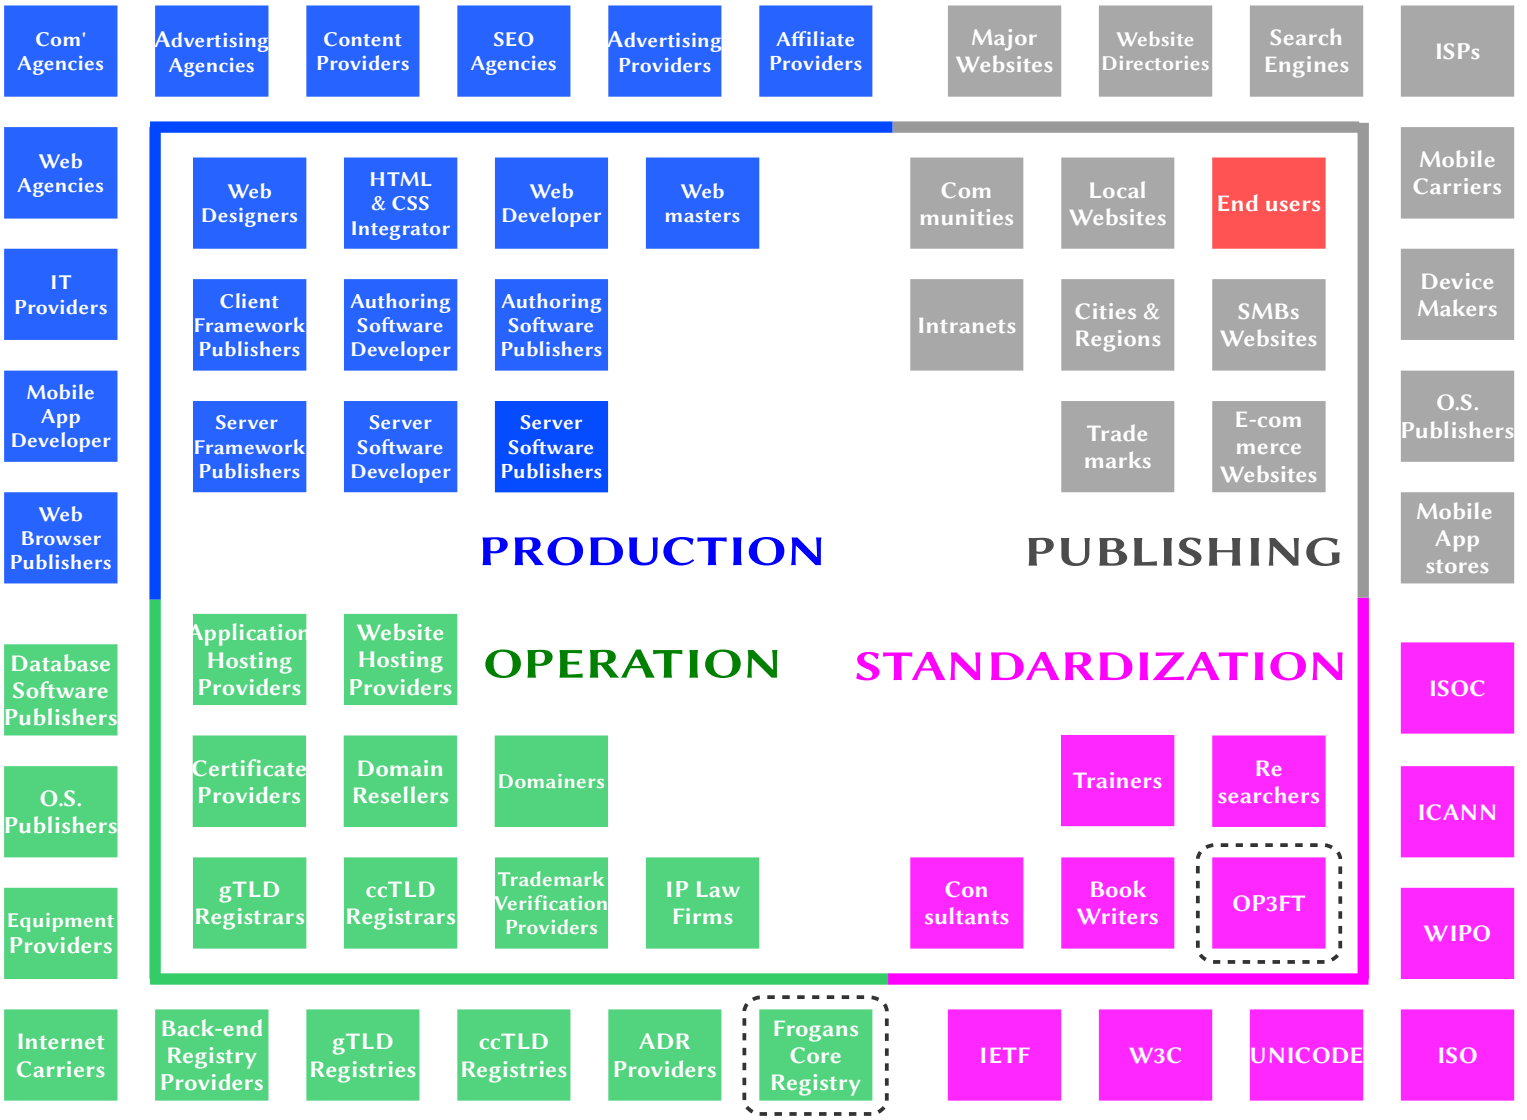
- Presented globally

OP3FT

POST-EXPO

FROGANS TECHNOLOGY

A new ecosystem is going to flourish on top of the Frogans technology

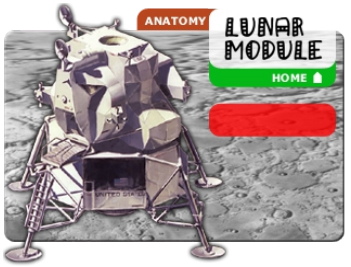


OP3FT

Designers and developers can easily create Frogans sites

Frogans sites are a new type of site:

- Small
- Fast-loading
- Portable
- Creative
- User-friendly
- Secure
- International



Anyone can access Frogans sites with Frogans addresses

Frogans addresses are a new type of Internet address:

- Short
- Distinctive *
- International (179 languages)

Network-name*Site-name

Latin

网络 - 名称 * 现场 - 名称

Chinese

Сеть-название*Сайт-название

Cyrillic

اسم-شبكة*اسم-موقع

Arabic

שם-רשת*שם-אתר

Hebrew

+ Japanese, Korean, Devanagari, Thai, Greek

FROGANS TECHNOLOGY

For developers: only one development and your Frogans sites look exactly the same on all devices

Frogans sites can be hosted on any standard hosting server currently in use, typically HTTP
(as for your Web site)
